CORE SKILLS

Core

React, React Native

Languages

JavaScript, TypeScript, C++, Python, Dart

Backend & Data

Supabase, Firebase Auth, Firestore, PostgreSQL, MySQL, REST APIs, FastAPI

AI

Gemini API, Sentence Transformers

Tools

Git, GitHub, VS Code, Android Studio, Google Colab

CERTIFICATIONS

React JS for Beginners

React JS Complete - Cursa

STRENGTHS

- Problem solving
- Team collaboration
- Debugging
- Responsive UI
- Agile workflow
- Communication

PROFESSIONAL PROFILE

Full-stack developer with a frontend-first foundation in React and React Native. I build responsive products and connect them with authentication, databases, REST APIs and practical AI integrations. JavaScript is my primary language, supported by TypeScript and strong problem-solving fundamentals.

EDUCATION

BS Computer Science

Sep 2022 - 1 Aug 2026

COMSATS University Islamabad | CGPA 3.22 / 4.0

FSc Pre-Medical

Jun 2020 - May 2022

Govt Postgraduate College Vehari

Matric Pre-Medical

Mar 2018 - May 2020

Govt Model Higher Secondary School Vehari

INTERNSHIP EXPERIENCE

Android App Development Intern

Jul - Sep 2024

We Connect Software House

Collaborated with the development team on Android UI implementation, debugging, testing and performance improvements while participating in project meetings and feedback cycles.

SELECTED PROJECTS

AI-Powered FYP Suggestion & Submission Portal

React-based academic workflow connecting project discovery, submissions and AI-assisted quality support.

Multi-Role Healthcare Appointment Management

React and Supabase system with patient, doctor and admin workflows, authentication and protected data.

RoadWatch

Private React Native and Expo product in active development; interface design and proof-of-concept validation completed.

WORKING STYLE

Understand the problem

Build and test

Improve through feedback
